

FAMILY UPDATE:

We apologize this letter is getting to you a couple of weeks late. Right now we are still under a strict lock-down, but things are turning around. We've noticed things are opening up a little more and more.

We were able to travel to the main city, San Pedro Sula, to visit a more American grocery store. The stores are taking pretty good measures to keep from spreading the virus. Masks are required pretty much everywhere we go.

Jason has been able to help paint at the church this past week. Since services for our church are still online, the leaders are doing some maintenance work. Jason enjoyed time with the men.

One evening we were able to use our small grill to have a "campfire" and roast some marshmallows. The children did a great job roasting the perfect marshmallow and making S'mores!

Thank you for your continued prayers and support. We especially appreciate those of you who have given above and beyond during this time! God continues to provide for our needs.

REARICK SURGICAL CENTER UPDATE

We now have our goal set! We have four surgical teams planned for Honduras next year:

- January 22-30, 2021
- July 2-10, 2021 (Coinciding with the larger MMO trip)
- September 3-11, 2021
- October 29- November 6, 2021

We are very excited as we prepare for teams next year. There is definitely a need here in El Progreso of hundreds of patients needing surgeries. Even now with the quarantine in place I am being asked when our surgeons will be here and when can people have surgeries. Please pray that as team members start to apply, that God will direct the providers to fill each team and we will be able to have full OR (operating room) schedules.

Jason has also tried to find small ways to provide health care to our local church. He has had the chance to make splints for broken bones, check blood pressures, and look in the occasional infected ear. People are appreciative, but they don't realize how much he really does enjoy having patients to check evaluate.

PRAYER REQUESTS

- Pray continue to pray for our house to sell in W.V. We are in contract. Please pray it will go through.
- Praise God for His provision. Daily we have seen God provide all of the things we need.
- Pray for good health and safety during this time.
- Praise God for the ways Jason has been able to use his medical knowledge.
- Pray for the Hope for Honduras children's home - they have lots of needs right now.
- Praise God for ways we've been able to connect as a family during this time.

Thank you for praying for us and remembering us during this time!

THE SCHEDULE IS LIVE!

If you have ever thought about a mission's trip consider checking out MMO! So many cultures, so many languages, so many customs, but each country below has one commonality. Each is full of people hungry for love, hungry for God. Look through the countries listed on their website and pray about joining them. They are looking for volunteers with a flexible attitude and a willingness to serve. Medical Missions Outreach is proud to partner with both medical and non-medical volunteers to accomplish our goal of introducing others to the Great Physician.
