

FAMILY UPDATE:

Our family was gifted plane tickets to return to the states for the month of April. We were there for about three weeks just visiting family. We were able to visit a few of our supporting churches as well. It was a great time of refreshment as we came back to a busy month preparing for the next surgical team.

Our children spent most of their days working on their school work, playing with friends from church, and learning a little more Spanish. The past sixteen months they've been exposed to quite a bit of Spanish and are doing a great job learning it slowly. Jack was very excited to share with us that during his class last week he understood the question the teacher asked and answered it. Our church has started up their Wednesday night classes (Soldiers of the Lord) again where the children memorize verses - all in Spanish! We are proud of their hard work.

Sarah has been busy helping to serve more in church. She recently signed up to work in the 0-2 children's nursery. The normal pianist for our church is out of town, so Sarah has also had the privilege to play the piano for the past two weeks during the Sunday and Wednesday church services. We are blessed with a wonderful church family here in Honduras. Many people here are patient with us as we struggle through talking in Spanish. They are also very giving! We were given homemade flour tortillas last week as a special treat from a lady in our church. We just love our church!

Jason and Sarah continue to work on Spanish, please pray for us as we try to move toward more fluency. Another prayer request is that immigration would approve our residency cards. It has been a sixteen month process. Jason needs this before he can apply for his medical license.

Jack turn 13 in May! We are so proud of the young man he is becoming!

May also brought a special addition to our family. Meet "Duke" our little beagle puppy! He was the last of his litter and we are so excited to have him. He is a sweet little thing! He won't be much of a guard dog, but will alert us if anyone comes to the house.

PRAYER REQUESTS

- Pray our paperwork to go through for our residency.
- Praise God for a full team to do surgeries in July!
- Pray for the surgical team and the medical/optical brigade coming in July.
- Praise a great trip to the U.S. to visit our family.
- Pray as Jason selects patients.
- Praise God for always suppling our needs.

DO YOU WANT TO BE INVOLVED?

Medical Professionals:

If you are a medical professional, you will form a vital part of our clinical, dental, vision, or surgical system (depending on your education and experience). Registered nurses and those holding advanced degrees will be used as providers in our normal clinic settings. You will be supported by other team members to help you feel comfortable in this role, and you will be equipped with the information and supplies you need for each consultation.

You can go here:

REARICK UPDATE SURGICAL CENTER

We are very excited as we prepare for our second surgical team coming in July! People are already coming up to me in church and asking about loved ones that need surgery. I have also already received a list of potential patients from the hospital. Pray that the Lord will direct our paths as we choose our patients and that their hearts would be open to hearing the Gospel.

The team in July has come together and will include a general surgeon and two anesthesiologists. We also have some great nurses and OR techs that will be ministering to our patients. Pray for their health and for their preparation as we look forward to a full schedule of surgeries.

We had the blessing to be able to prepare and send three pallets of supplies to Honduras from the states. They are in route at this time. Included are a new C-arm to use with orthopedic surgeries, along with many other donated items that will help us work on patients.

Our support address is:

Medical Missions Outreach - Account #102
9200 Philadelphia Road, Baltimore, MD 21237
